

MySQL

Select this [data base](#) connection if you want to synchronize data between your client devices and our MySQL server. In our installation we support the following [data store handler](#):

- **Contacts**
- **Calendar**
- **Tasks**
- **Note**
- **Browser bookmarks**

After this step you are ready to synchronize your client device with our **sync●gw** server.

Please notice the [limitations in our test environment](#).

We recommend creating a backup of your application data on your client device. Please use the appropriate software provided by your device manufacturer.

We would be happy if you could share your experiences during your tests. Please send us a message using our [contact form](#).
